R.I.p Robert I was in Mitch's class of 80 and got to hang out with the mount bros a few times . Worked with their next door neighbors Larry and Derek for over 25 years at the body shop . All Great guys a few years back i scored the most rare coca cola machine known on the planet . The top sheet metal topper white sign section was missing. I showed Robert and Jeff the pictures and measurements. Well he blew me away made it perfect I had no body work at all on it. Robert welded a lot od stainless car mouldings for me as well over the years restoring cars . He was one great welder and metal man im still in the trade and playing with cars and trucks he will be missed prayers for the family
